

Week 12 Final Capstone Business Report

Executive Summary

This project delivers a complete data science workflow with business framing, analysis, model development, deployment preparation, and recommendations.

Key Results

Metric	Value
Churn F1	0.9565
Churn Recall	1.0000
Churn ROC-AUC	1.0000
Top Sales Product	Laptop
House Price R2	0.9706

Visual Evidence

Recommendations

Use the churn model for retention targeting, pair outreach with customer value signals, monitor sales patterns monthly, and retrain the model as new customer data becomes available.
